## Form ESW-FID Instructions

### What is the purpose of Form ESW-FID?

The purpose of this form is to assist a fiduciary in calculating the 2017 estimated income tax. Estimated tax payments are a method used to pay tax on income that is not subject to withholding. Examples of income that may not be subject to withholding include interest, dividends, rents, capital gains, royalties, etc.

### Is a fiduciary required to make estimated tax payments?

A fiduciary for an estate or trust is required to make estimated tax payments in 2017 if the estate or trust expects to owe an income tax liability of at least \$500 after subtracting tax credits and withholding payments.

If a fiduciary is required to make estimated tax payments, these payments will be the lesser of:

- 100% of the 2016 Montana tax liability reported on Form FID-3, line 36, or
- 90% of the 2017 Montana income tax liability.

### Who is not required to make estimated payments?

The fiduciary is not required to make estimated tax payments in 2017 if the estate or trust meets one of the following criteria:

- The 2017 income tax due after credits and withholding is less than \$500,
- The 2016 tax period covered 12 months and the Montana tax due was zero, or
- The estate or trust was not required to file a 2016 Montana income tax return.
- At least 2/3 of the estate or trust's gross income is derived from farming and ranching operations. (Montana does not apply a "lookback" provision to determine farming and ranching gross income.)

### When are the estimated tax payments due?

When a fiduciary files an estate's or trust's tax return on a calendar year basis, it may prepay all of the estimated taxes for 2017 by April 15, 2017, or it may pay them in four equal amounts that are due on the dates listed below.

First payment	-	due April 15, 2017
Second payment	-	due June 15, 2017
Third payment	-	due Sept 15, 2017
Fourth payment	-	due Jan 15, 2018

If any of these installment dates fall on a weekend or a holiday, the payment is due on the next business day.

If a fiduciary files an estate's or trust's tax return on a fiscal year basis, the payment dates are the 15th day of the fourth, sixth, and ninth months of the fiscal year and the first month of the following fiscal year.

### What does a fiduciary need to do if the income situation for an estate or trust changes during the year?

If an estate's or trust's tax situation changes during the

year, the fiduciary will need to recalculate the estimated tax payments. The remaining installment payments will need to be proportionally changed so that the balance of the estimated payments is paid equally over the remaining installment periods.

### How does an estate or trust determine the amount of estimated withholding that it will have in 2017?

A fiduciary can use the 2017 paycheck or pension check stubs received to date to estimate the amount of withholding that the estate or trust may have in 2017.

In addition, remember to include in payments any 2016 overpayments that are credited to 2017, any backup withholding that may be made on behalf of the estate or trust from a pass-through entity, or any estimated refundable credits, such as the elderly homeowner/renter credit.

### A fiduciary did not make estimated tax payments in 2017 and the income tax due of the estate or trust is more than \$500. Is the estate or trust subject to any penalties and interest on the underpayment?

Yes. A fiduciary is required to pay the income tax liability of an estate or trust throughout the year. Payments can be made through employer withholding, installment payments of estimated taxes, or a combination of employer withholding and estimated tax payments.

If a fiduciary did not pay in advance at least 90% of the 2017 income tax liability (after applying credits) or 100% of the 2016 income tax liability (after applying credits), the fiduciary may have to pay interest on the underpayment of the estimated tax.
