Nonrefundable single-year credits. The nonrefundable single-year credits can only be used to offset the 2009 tax after capital gains credit and cannot reduce the tax liability below zero. The unused portion that exceeded the 2009 tax liability cannot be carried forward or back to other tax years.

Nonrefundable carryover credits. The nonrefundable carryover credits can be used to offset the 2009 tax after capital gains credit and cannot reduce the tax liability below zero. The excess credits that were not applied against the 2009 income tax liability can be carried over and used to offset future year tax liabilities.

Refundable Credits. The refundable credits are applied against the income tax liability with any unused credit refunded to the estate or trust.

Please note: If the trust is a grantor trust, the credits are reported on the Montana individual income tax return.
