Montana Tax Credits

We have listed six credits that can be used when filing Montana Form 2M. However, the Montana Legislature has authorized 27 different income tax credits. See Montana Form 2, Schedule V for a list and description of these 27 tax credits that are available. If you are eligible for any of the other credits not listed above, you will have to file Montana Form 2 instead of Form 2M. There are three categories of credits available to you on your Montana individual income tax return. With the exception of the capital gains tax credit, which is required to be applied before any other credit, (refer to the instructions for Form 2M, line 44) you are not required to apply any of these six other tax credits against your income tax liability in any particular order.

- **Nonrefundable single-year credits.** Your nonrefundable single-year credits can only be used to offset your 2008 resident tax after capital gains credit and cannot reduce your tax liability below zero. The unused portion of your nonrefundable single-year credits that exceeded your 2008 income tax liability are lost and cannot be used in future years.
- **Nonrefundable carryover credits.** Your nonrefundable carryover credit can be used to offset your 2008 resident tax after capital gains credit and cannot reduce your tax liability below zero. Your excess nonrefundable credit that is not applied against your 2008 income tax liability can be carried over and used to offset future year tax liabilities.
- **Refundable credits.** Your refundable credits are applied against your income tax liability with any unused credit refunded to you.
