## General Information

### What is the purpose of Form ESW-FID?

The purpose of this form is to assist you in calculating your 2010 estimated income tax. Estimated tax payments are a method used to pay tax on income that is not subject to withholding. Examples of income that may not be subject to withholding includes interest, dividends, rents, capital gains, royalties, etc.

### Am I required to make estimated tax payments in 2010?

You are required to make estimated tax payments in 2010 if you expect to owe an income tax liability of at least \$500 after you subtract your tax credits and withholding payments.

If you are required to make estimated tax payments, these payments will be the smaller of:

- 100% of your 2009 Montana tax due reported on Form FID-3, line 44, or
- 90% of your 2010 Montana income tax due.

### Who is not required to make estimated payments?

You are not required to make estimated tax payments in 2010 if you meet one of the following criteria:

- Your 2010 income tax due after credits and withholding is less than \$500.
- Your 2009 tax period covered 12 months and your Montana tax due was zero.
- You were not required to file a 2009 Montana income tax return.

### When are my estimated tax payments due?

When you file your return on a calendar year basis, you may prepay all of your estimated taxes for 2010 by April 15, 2010, or you may pay them in four equal amounts that are due on the dates listed below.

First payment	-	due April 15, 2010
Second payment	-	due June 15, 2010
Third payment	-	due Sept 15, 2010
Fourth payment	-	due Jan 15, 2011

If any of these installment dates fall on a weekend or a holiday, your payment is due on the next business day.

If you file your return on a fiscal year basis, your payment

dates are the 15th day of the fourth, sixth, and ninth months of the fiscal year and the first month of the following fiscal year.

**I completed my estimated income tax worksheet at the beginning of the year and did not anticipate a change in my income throughout the year. What do I need to do if my income situation changes during the year?**

If your tax situation changes during the year, you will need to recalculate your estimated tax payments. Your remaining installment payments will need to be proportionally changed so that the balance of your estimated payments is paid equally over the remaining installment periods.

**How can I determine the amount of my estimated withholding that I will have in 2010?**

You can use your 2010 paycheck or pension check stubs that you have received to date to estimate the amount of withholding that you may have in 2010.

**I am a nonresident of Montana. Do I have to make estimated tax payments?**

As a nonresident trust, you are required to make estimated tax payments if you expect to owe at least \$500 in Montana income tax after subtracting your Montana withholding paid and credits that you are entitled to.

**I did not make estimated tax payments in 2010 and my income tax due is more than \$500. Am I subject to any penalties and interest on my underpayment?**

Yes you are. You are required to pay your income tax liability throughout the year. You can make your payments through employer withholding, installment payments of estimated taxes, or a combination of employer withholding and estimated tax payments.

If you did not pay in advance at least 90% of your 2010 income tax liability (after applying your credits) or 100% of your 2009 income tax liability (after applying your credits), you may have to pay interest on the underpayment of your estimated tax.
