General Instructions

Definitions

"Alternative Fuel" means natural gas, liquefied petroleum gas, liquefied natural gas, hydrogen, electricity or any other fuel if at least 85% (0.85) of the fuel is methanol, ethanol or other alcohol, ether, or any combination of these.

Who can claim this credit?

An individual, corporation, or partnership that converts a vehicle that is licensed in Montana, from operating on gasoline to operating on an alternative fuel is entitled to the credit.

How do I claim my credit when I am a partner or shareholder in a partnership or S corporation that converted the vehicle?

Your partnership or S corporation will report the credit on its informational return and provide you with your share of the credit on a Montana Schedule K-1.

Your share is based on the same proportion used by you to report your income and loss from the entity for Montana tax purposes.

If you file your Montana tax return electronically, you do not need to mail this form to us unless we ask you for a copy. When you file electronically, you represent that you have retained the required documents in your tax records and will provide them upon the department's request.

When the conversion is made by your S corporation or partnership, remember to complete the information above that identifies the entity's name, federal employer identification number and your percentage.

If the credit exceeds my tax liability, can I carry any excess credit to another tax year?

No, you cannot. Your credit can only be claimed in the year the conversion is made and cannot exceed your tax liability.

What information do I have to include with my tax return when I claim this credit?

Individuals and C corporations filing paper returns must include a completed Form AFCR. Partnerships and S corporations filing paper information returns must include a separate statement identifying each owner and their proportionate share, in addition to a completed Form AFCR.
