

## Guide for licensed/registered alcoholic beverage manufacturers/importers.

### All Manufacturers:

- Some product labels require a **Certificate of Label Approval/Exemption** (COLA) for products regulated by the Alcohol and Tobacco Tax and Trade Bureau (TTB). Any change to the label that requires approval or exemption from the TTB must be approved by Alcoholic Beverage Control Division (ABCD) prior to the product entering the Montana market.
- All required alcoholic beverage labels, along with the picture of the label, and primary packaging (unless a traditional container is used), must be submitted to ABCD prior to shipping or selling alcoholic beverage products in Montana.
- When online label submissions are required through our TransAction Portal (TAP) at <http://tap.dormt.gov>, the limit is a maximum of 10 labels per online submission.
- Manufacturer licensees may produce alcoholic beverage products for a business. The manufacturer's name must be visible on the label, tap handle, menu, bar glasses, napkins, etc., and may not be misleading as to who has produced the product. Acceptable examples: "Betty's BBQ Pale Ale brewed by Best Brewery Company," or "Distilled for Betty's BBQ by D.R. Distillery", etc.

### Breweries:

- Each product an out-of-state brewer or beer importer desires to sell in Montana must have the product label approved by ABCD.
- Label submissions are required online through TAP.
- Breweries licensed in Montana with an annual nationwide production of less than 10,000 barrels are exempt from ABCD label approval unless the beer's ABV is more than 8.75% alcohol by volume (ABV) but not more than 14% ABV.
  - Beer over 8.75% ABV may be considered liquor, depending on how the beer is produced, and beer over 14% ABV is considered liquor in Montana and must follow the distilled spirits labeling instructions.
- COLAs are not required with labels when the product is sold within Montana.
- Breweries participating in a collaborated brewed beer product:
  - All breweries must submit label approvals of the collaborated beer if the ABV is over 8.75% and if they want to take the product to their licensed premises and serve it in their sample room or licensed retail area.
